

MEDfx Testimonials

“MEDfx has brought my practice into the 21st century. MEDfx is performing very well for my practice. I was extremely pleased and pleasantly surprised that the transition from my legacy system to MEDfx went so smoothly. The concept of doctors only wanting to practice medicine while being ignorant of the business side of their practice is going by the wayside. Doctors now see that they can practice the medicine they want to practice, but do it better with technology’s help.”

William R. Helfrich, Jr., M.D., President, CEO, and Founder
South Shore Urology, Inc.

“Insurance claim payments are so much faster with MEDfx and CLAIMfx than with my legacy PM product.”

Sue Haas, Office Manager
Fairview Pediatrics

“With CLAIMfx, our claims submission is working out really well and we get faster payment of claims. We have no regrets about MEDfx. We are really happy with it.”

Laurie Maritato, Office Manager
Sound Medical Care, P.C.

“I was searching for a technology that incorporated the standards of the industry. I am looking forward to future technology that can be plugged into MEDfx. I am confident that MEDfx will be compatible to whatever I choose. I felt that by going with MEDfx, I was moving forward in the right direction.

Betsey Walton, Office Manager
Bennington Associates Internal Medicine

“Our big concern was the migration of our immunizations and it was without a glitch. The overall satisfaction with MEDfx is very high and must be attributed to the quality [of the product] and also the training and support we received during the transition from PMS to MEDfx.”

Carol Gilchrist, R.N., C.M.M., Practice Manager
Michael A. Gilchrist, M.D., Pediatrics
