

## SpringChart EHR Stimulus Solution

Need to implement an EHR solution in your practice but don't know how you can afford it? Spring Medical and PrimaryData have the answer — install SpringCharts EHR in your practice today and qualify for the 2011 proposed stimulus monies to pay for it.

Spring Medical has created a leasing program to allow you to start seeing the workflow efficiencies and cost savings of SpringCharts EHR and pay for it later. The SpringCharts EHR Stimulus Solution provides a payment plan that matches your out-of-pocket payments to the stimulus reimbursement schedule.

And you get the following benefits that come with SpringCharts EHR:

- Improved charting by using Templates and PopUp Text;
- See more patients in less time – Go home when your last patient leaves;
- No lost or misplaced charts ever again;
- Start receiving eRx benefits in 2009;
- And many, many more...

Here are some examples of the Spring Medical Stimulus lease program:
