

Comprehensive E-Rx Functionality Increases Productivity, Safety and Compliance

◆ Surescripts-Certified Electronic Prescriptions	◆ Comprehensive Prescription History
◆ Drug Interactions	◆ Automated Rx Renewals
◆ Formularies	◆ Standalone or SpringCharts integration
◆ Dosage Checking	◆ Runs on Windows, Macintosh, Mobile (iPhone, Palm, others)

SpringScripts is the easy to use, reliable and fast way to manage your new prescriptions and renewals. It allows you to provide a higher level of patient service and safety, streamline your office workflow, and save time and money.

SpringScripts delivers the efficiency of electronic prescriptions, renewals and real-time clinical decision support tools including drug interactions, formularies, medication history and dosage checking. And patients benefit as well through faster service and the highest levels of safety and security available.

In addition to the obvious benefits of e-Prescribing, CMS and private payors are increasingly encouraging its adoption, making it the right time to integrate SpringScripts into your practice. And with support for desktops, laptops and mobile devices like the iPhone, you can access SpringScripts wherever you are.
